2019/20

Cumbria's Training Events for School Based Staff and Governors 2019/2020

Welcome to 'Cumbria's Training Events for School Based Staff' course brochure for the 2019/2020 academic year.

This brochure brings together a wide range of high quality, value-for-money full day/half day/twilight courses and conferences, designed to address key areas of school improvement, based on our best intelligence of current needs.

As always additional courses will undoubtedly be planned and added to our programme throughout the year in response to demand and emerging needs. These additional courses will be distributed to schools and settings via email and added to the Schools Portal.

An electronic version of the brochure and any subsequent additions will also be available on the Schools Portal and the Cumbria County Council Website – <http://www.cumbria.gov.uk/childrensservices/schoolsandlearning/lss/tradedservices/>

An electronic brochure can also be downloaded on the SLA Online system; these brochures can be filtered by subject area for your convenience.

Some of the courses featured in this brochure can be offered as a bespoke training event or as part of an 'INSET day' for your school. Please contact the Apprenticeship and School Development Team who will be happy to arrange this for you.

Pricing

Each event detailed in this brochure has been scrutinised to ensure the proposed fee is as low as possible.

Following feedback from schools and partners, we have made the prices for each course the same for ALL delegates. This means that there are no additional charges to delegate places from academy and independent schools, please note that this does not include VAT where applicable.

Booking Arrangements

Places for all courses can be booked by registered users through our online system SLA Online – <https://secure2.sla-online.co.uk/?logo=10>.

Places are confirmed via the system once the delegate name has been added and the course checked out of the shopping basket. The Apprenticeship and School Development Team will also send out an email reminder one week before courses are due to take place.

When booking places on multiple courses, these can all be 'checked out' of your shopping basket at the same time, using the same purchase order number. There is no need to check each course out separately (unless you wish to use different order numbers).

We hope we have included sufficient information about each course within this brochure, but please do not hesitate to contact The Apprenticeship and School Development Team, if you require further information

Email: schooldevelopment@cumbria.gov.uk, or Telephone: 01228 226817

Commitments and Cancellations

Establishments will not be charged if cancellations of bookings are received more than five working days prior to the event. If cancellations are not made within five working days this will result in the full cost of the course being applied, this also applies in the case of non-attendance, which is identified from the attendance list. Any courses that are an exception to this, will detail the cancellation policy in the course details and confirmation/reminders.

If for any reason we have to cancel or postpone training, we will notify all delegates booked onto the course as quickly as possible; a full refund will be given in the event of cancellation by us.

Payment

Accepted bookings will be treated as a firm commitment. The following billing arrangements will then apply:

- By booking on to a course, Local Authority schools will have authorised a transfer of the full costs from their school budget
- 'Cheque book' schools and other clients will be invoiced
- Non-Cumbrian schools will need to send a cheque to cover payment in advance of the course to secure the booking. Please make all cheques payable to 'Cumbria County Council'.

All charges to Cumbrian schools will be made at the end of each term.

Evaluation

To ensure that our courses remain relevant, effective and of high quality, we encourage delegates to provide feedback. After training courses have taken place, delegates will be emailed a link which should be followed to input

evaluation comments; this should be done within one week of the course date. Once the feedback has been submitted a certificate of attendance will be available to download. Delegates will not receive a certificate if they do not complete the feedback. If you have any other comments about any aspect of our training courses, or would like to see anything else included in our offer, please do not hesitate to contact the Apprenticeship and School Development Team:
Email: schooldevelopment@cumbria.gov.uk, or
Telephone: [01228 226817](tel:01228226817).

We look forward to seeing you at our courses during the next year.

Yours Sincerely

M. Watson

Personal Education Plan (PEP) Training for Children Looked After (CLA)

Course Outline:

All Children Looked After (aged 0 – 18) must have a PEP which is an integral part of their care plan. The PEP is an evolving record of what needs to happen for the child/young person to make at least expected progress and fulfil their potential. The training will enable you to produce high quality and effective PEPs. It will provide information on Pupil Premium Plus and how the funding is allocated based on the needs identified in the PEP.

Target Audience:

Designated Teachers for Children Looked After
 School Staff who are involved with PEPs
 Post 16 Providers
 Governors
 Foster Carers
 Social Workers and Personal Advisers in the CLA Teams
 Social Workers in the SAP Teams

Course Provider:

Colleagues from the Children Looked After Team – Cumbria County Council

Outcomes:

- To have a clear understanding of the PEP process and the roles and responsibilities within the process
- To be able to contribute to a high quality and effective PEP
- To have an understanding of how Pupil Premium Plus is allocated depending on needs identified in the PEP
- To have a clear understanding of the review process and the timescale requirements
- To have clarity regarding your role in supporting the child/young person and their educational progress

One Day Youth Mental Health First Aid in Schools

Course Outline:

The one day youth mental health first aid (YMHFA) course covers the key issues impacting on young people's mental health today such as social media, peer pressure, bullying and family units breaking down. Mental health issues discussed on the course include depression, suicide, anxiety, self-harm, eating disorders, and psychosis. The course finishes with a focus on recovery and resilience, including staff wellbeing.

Course manuals and workbooks are included.

Target Audience:

The YMHFA one day course was developed in response to feedback from schools that it was difficult to find time within busy school timetables for staff to complete the original YMHFA two day course. The course has been tailored for school staff but is also suitable to all those working with children and young people and their families/carers.

The YMHFA one day course qualifies you as a YMHFA Champion.

Course Provider:

Cumbria's Multi-agency YMHFA England Trainer Network

The network is comprised of local trainers from a variety of backgrounds across mental health, and related professions. All members are approved and registered as Mental Health First Aid instructors with MHFA England

Outcomes:

- To gain an understanding of common mental health issues and how they can affect young people
- To have the ability to spot signs of mental ill health in young people and guide them to a place of support
- To improve knowledge and confidence to advocate for mental health awareness
- To develop skills to support positive wellbeing

Two Day Youth Mental Health First Aid

Course Outline:

The two day youth mental health first aid (YMHFA) course content covers the background to children and young people's mental health and from a first aid context looks in further detail at anxiety and depression, self-harm and suicide, psychosis, eating disorders and recovery over two days. It includes an emphasis on the importance of looking after our own mental health and staff wellbeing.

Course manuals and workbooks are provided.

Participants are required to attend both days in full to receive their MHFA England Certificate.

Target Audience:

This two day course is appropriate for all those working directly with or caring for, children and young people, (from the ages of 8 – 18).

It is recommended for those working in primary and secondary education in leadership or pastoral care/pupil support roles, along with those working in college and further education settings.

The two day YMHFA course qualifies you as a Youth Mental Health First Aider.

Dealing With Angry And Aggressive Parents Safely, Assertively And Positively

Course Outline:

Have you ever been threatened or intimidated by angry, irate and aggressive parents? Have you ever come away from an encounter feeling angry, upset and feeling that they have got the better of you by shouting, not listening or even sometimes, bullying behaviour? If the answer to any of these questions is 'yes' then this course may well be useful to you. Whilst not a panacea (nothing is!) the skills and techniques learned will assist you in de-escalating the situation and hopefully provide a more satisfactory outcome for both parties.

Target Audience:

All teachers, NTAs, support staff and management irrespective of the size of the school or age of the pupils (primary and secondary).

In simple terms, a good course for anyone who encounters challenging or awkward parents!

Course Provider:

Guy Pocock BSc – Lakes Training Solutions Ltd

Outcomes:

- To consider personal safety when dealing with threatening and potentially aggressive encounters
- To list the benefits of applying a conflict management model to threatening situations
- To evaluate the effectiveness of assertive behaviour in threatening situations
- To be able to appreciate the use of transactional analysis and apply conversation management
- To communicate more effectively in challenging situations
- To apply the theory to delegate's own personal experiences and evaluate its effectiveness

Building Understanding of Terrorism and Extremism Through Philosophy for Children Enquiry

Course Outline:

Schools have a duty to safeguard children and to help them develop critical thinking in relation to extremism and terrorism. This is hard to do: these are controversial topics, and discussions need to be well managed. Philosophy for Children (P4C) is a globally established programme which encourages young people to explore challenging issues. P4C provides a safe space where students can air, examine and challenge views. The P4C approach combines with a new set of teaching and learning resources for 9 – 13 year olds. The resource was developed by senior P4C trainers in response to the terrorist attacks in Manchester, Yorkshire and London in 2016/7. It was piloted in 2018 by 45 primary and secondary schools in Cumbria, Manchester, Sheffield and London. Teachers and students both strongly endorsed the programme. All teachers who attend the course will gain password protected access to the online resources.

Target Audience:

Headteachers
Senior Leaders
Upper KS2 Primary Teachers
KS3 Secondary Teachers

Experience of or prior P4C training is preferred

Course Provider:

Jane Yates – Advanced P4C trainer (SAPERE registered)
Cumbria Development Education Centre

Outcomes:

- To introduce the four main themes and lesson plans of the teaching and learning pack (exploring identity; understanding terrorism; responding to terrorism and developing shared values; government and democracy)
- To develop teacher confidence in discussing issues regarding extremism and terrorism
- To demonstrate philosophical enquiry with controversial topics in practice

How Attachment and Trauma Impact on Learning

Course Outline:

The behaviour of children who survive traumatic experiences such as loss, trauma, abuse and neglect can easily be misunderstood. Their behaviour is communication and this training will enable you to understand their behaviour from an attachment perspective. The training provides strategies and practical tools to promote inclusion and to positively affect learning outcomes.

Target Audience:

Nursery Staff
 Teachers from Primary and Secondary Schools
 Support Staff from Primary and Secondary Schools
 HLTAs from Primary and Secondary Schools
 Designated Teachers for Children Looked After and Previously Looked After Children
 Designated Governors for Children Looked After and Previously Looked After Children

Course Provider:

Colleagues from the Children Looked After Team – Cumbria County Council

Outcomes:

- To raise awareness and understanding of attachment and the different attachment styles and how they impact on learning and behaviour
- To raise awareness and understanding of trauma and stress and how they impact on the brain and body and therefore learning and behaviour
- To raise awareness and understanding of how the brain develops and how the brain can be altered which improves learning and behaviour
- To raise awareness and understanding of what a child needs in order to make good choices, carry out tasks, feel loved and supported
- To explore practical strategies to use throughout the school day

Storytelling for a Digital Age: Tried and Tested Resources to Improve Literacy and Oracy Skills

Course Outline:

This course brings tried and tested the learning and resources from the Sankofa storytelling project – a project that has combined traditional storytelling techniques with digital technologies.

The course leader will take teachers through stories from different cultures to understand similarities and differences, then introduce the learning guide and toolkit of resources to help practitioners to plan classroom sessions, to enable pupils to find new stories that will contribute to a sustainable future in our interconnected world. The themes the course will explore through the storytelling process will include migration, gender, biodiversity, climate change and will be linked to the sustainable development goals.

The project will develop teachers' skills to prepare children for thinking critically about local to global themes and will provide all participants with the opportunities to develop language skills, digital and global competencies. It will enrich English primary curriculum particularly through speaking, listening and drama opportunities; PSHE in building self-confidence, creativity and presentation skills and in IT skills.

Widening the Curriculum

Course Outline:

Ofsted are now looking at the width and depth of the school's curriculum. Are children receiving a broad palette of all subjects that help them understand the world around them? Are relevant and meaningful links being made between all areas of the curriculum? This course will help you seize these opportunities to make connections to other areas of the curriculum that will engage children and demonstrate why science is so exciting and relevant to their lives. Discover how one science lesson can also teach objectives from history, art, computing, maths and English, helping you save time and deepen the children's learning.

Target Audience:

Primary Science Subject Leaders
Primary Class Teachers
Primary NQT's
HLTAs

Course Provider:

Hester Binge – Education Guru

Outcomes:

- To be able to challenge and engage your pupils, helping them develop their science knowledge and 'working scientifically' skills in response to the world in which they live
- To be able to identify your pupils' misconceptions and be able to take their learning further by addressing them using real-life contexts
- To discover new and creative ways to develop cross-curricular links that create deep and meaningful learning
- To be able to teach more than one subject's learning objectives in a lesson, thus releasing more time in your busy teaching schedule

Global Maths: Supporting the Delivery of a Broad and Balanced Curriculum

Course Outline:

Use real and relevant examples to enrich your maths teaching and help children learn about global issues at the same time.

The National Curriculum states that, 'They [pupils] should... understand the cycle of collecting, presenting and analysing data.' Understanding and making sense of data is an important part of understanding many global dilemmas.

This course will give practical examples and resource links that will excite your pupils and save you time in looking for appropriate information for children to work with; many topics will be covered including poverty, inequality, health, education, mortality, migration and climate pressures in other parts of the world and in this country.

In addition we will be comparing the children's daily lives with real examples from children in other parts of the world using measurement of capacity, weight and time – so practically linking local to global.

For busy teachers wanting to teach children real maths skills for their future world and to help them critically analyse and question statistics, then this course is a must.

Target Audience:

English Subject Leaders

Hidden Stories Shared Lives

Using Migrants Stories to Build our Schools as Communities of Welcome

Course Outline:

This exciting and timely twilight course will provide a meaningful context to learning about migration with the use of engaging, contemporary mixed media resources created using life stories from people who chose Cumbria to be their home. The session focuses on recent migration and offers an insight into the meaning of home, belonging, community and identity.

During the course we will critically engage with and reflect upon the 'big ideas' around the issue of migration, discover a wealth of new learning resources that you can use in your classroom. The course, resources and approach will provide support to building a school ethos of 'welcome' to new community members.

Target Audience:

Teachers of KS1, KS2 and KS3

Course Provider:

Cumbria Development Education Centre

Outcomes:

As a result of attending this session, participants will be able to:

- Explore the concept of diversity, identity and community cohesion through contemporary stories about migration
- Understand more about migration in order to feel more confident about engaging learners in exploring the issues
- Explore own attitudes and behaviour towards migration and migrants, reflect on own citizenship and identity
- Feel more confident about using (and planning) cross-curricular learning around migration

An Introduction to Mindfulness

Course Outline:

Mindfulness is recognised as one of the most effective skills to improve mental and emotional wellbeing. Studies show that mindfulness training improves health, greater resilience to stress, increased concern for others and an improved ability to pay attention. Reportedly, the government will provide means to teach mindfulness in schools for children aged 8-12 by 2020.

In this course you will learn what mindfulness is and consider how it enables us to:

- Increase sensory awareness
- Give greater cognitive control
- Enhance regulation of emotions
- Accept transient thoughts and feelings
- Improve our capacity to regulate attention

Please bring a comfortable rug/yoga mat and cushion for floor work. Floor work is not compulsory and being seated on a chair is the alternative posture for some of the exercises.

Target Audience:

Anyone in the school workforce who wishes to find out more about mindfulness, for their own personal use and to consider how it might benefit their school community

Course Provider:

Ondy Willson – Wellseeing Consultancy

Outcomes:

- To know what mindfulness is
- To be able to practise mindfulness meditation
- To improve awareness of thoughts and emotions in our everyday lives
- To reduce stress and promote wellbeing

Dates and Time:

The Mindful Approach to Education

Course Outline:

Mindfulness is now widely recognised to be a therapeutic intervention and powerful tool to aid wellbeing. So how might it help us in the classroom? How can we offer practical ideas that teach children to manage stress and anxiety? In this session we will have the opportunity to practise and understand better how mindfulness works, *for ourselves*, and consider how it might benefit the children in our care. There will be an opportunity for discussion around the practices to consider implementation of simple techniques that will give children effective tools to increase:

- Self-awareness
- Emotion management
- Encourage empathy
- Improve social skills

Please bring a comfortable rug/yoga mat and cushion for floor work. Floor work is not compulsory and being seated on a chair is the alternative posture for some of the exercises.

Target Audience:

Teachers and Teaching Assistants, preferably who have some experience of mindfulness

Course Provider:

Ondy Willson – Wellseeing Consultancy

Outcomes:

- To enhance our understanding of mindfulness
- To increase skills that develop self-awareness, emotional intelligence, motivation and empathy
- To take away simple techniques and ideas for implementation in the classroom

The Mindful School

Course Outline:

The Mindfulness Conference for Education is now a national event. And with our current mental health crisis, the government are now looking at how we can help our children to reduce their stress, deal with anxiety and depression and promote their wellbeing. With youth happiness at an all-time low it seems the most essential learning tool for any child are skills on how to live! With this national awareness it is anticipated that government funding will be made available for controlled trials in 100 Primary Schools and 50 Secondary schools across the country by 2020. Find out what all the fuss is about and how you could introduce mindfulness to the whole school community.

Please bring a comfortable rug/yoga mat and cushion for floor work. Floor work is not compulsory and being seated on a chair is the alternative posture for some of the exercises.

Target Audience:

Headteachers
Assistant Headteachers
Teachers
School Staff

Course Provider:

Ondy Willson – Wellseeing Consultancy

Outcomes:

- To know what mindfulness is and be able to practise it
- To consider how bringing mindfulness practice to your school would benefit everyone
- To consider taking back to your school a proposal for introducing mindfulness to the school workforce
- To become more knowledgeable about how mindfulness is now being used as an essential skill for life

Visit Leader Training

Course Outline:

This course will cover current statutory law and national guidance, planning and running a residential visit, leader competence, group management offsite, effective risk management, using Evolve, practical scenarios, emergency procedures and Local Authority support.

Do you lead visits or help with school visits? Then this course is for you.

Visit leader training is focused on active risk assessment and group management on educational visits and offsite activities. It is an OEAP certificated course transferable between employers.

This course covers the identification of relevant significant hazards and the importance of placing successful control measures including supervision and group management strategies.

The course is offered in support of the leader's role in educational visits and offsite activities. It remains the role of the employer (e.g. head of establishment, senior youth worker or educational visit co-ordinator) to determine the leader's suitability and competence to undertake a leadership role on any particular visit or venture.

Please note that this course is not EVC training and it is not a substitute for activity or terrain specific training provided by a sport's national governing body or employer.

The scheme provides practical training in leading groups outdoors and it does not take the place of Local Authority briefings/training on the management of educational visits although these may be included in this training.

Target Audience:

All Staff in Primary and Secondary Schools

Course Provider:

Colleagues from Derwent Hill Educational Visits Advisory Service on behalf of Cumbria County Council

Outcomes:

- To understand the importance of the role of the visit leader
- To update knowledge on the law and national guidance
- To ensure visit leaders understand the risk management process
- To familiarise visit leaders with the Local Authority's Evolve online notification and approval system
- To ensure visit leaders are aware of emergency procedures and the support available from the Local Authority

Education Guru's Science Support Programme for Primary Schools

Course Outline:

Our flexible intensive package offers tailored, targeted support that transforms science teaching in your school. The following elements are available to allow you mix and match the perfect package for your school:

- A. Full day mentoring with the Science Subject Leader, including full planning, work scrutiny and child interviews. This allows the Subject Leader to have a full picture of where science is in school allowing them to have the information needed to make an action plan for the next steps for their school.
- B. Joint observations with the Subject Leader; this has the dual benefit of helping you understand how to do Science observations and also to help see if what we had found in the work scrutiny was evident in the classroom.
- C. Individual sessions with each teacher in the school helping them to plan a unit with their strengths and areas of development in mind, and their children's needs.
- D. Bespoke inset training to cover any whole school issue

Target Audience:

Primary Science Teachers
Primary Science Subject Leaders
Primary Teaching Assistants

Course Provider:

Hester Binge – Education Guru

Outcomes:

- Set up processes for managing, monitoring, and assessing science learning across the school
- Create a vision for science improvement in your school and lead its development with confidence
- Discover new and creative ways to enrich and enhance your teaching of science and make it relevant and enjoyable for your pupils
- Promote relevant initiatives informed by the latest best practices

Education Guru's Wellbeing and Mindfulness for Primary Schools

Course Outline:

Wellbeing is increasingly being recognised as vital for effective learning. Stress, anxiety, and other mental health issues are big barriers to both teaching and learning. Statistics show that at least three children in every class will have mental health issues that obstruct learning for themselves and possibly others in their peer group. Teachers' health is of utmost importance both for themselves and for the children they teach. Without general mental health, their potential is compromised as is their pupils' learning. But there are lots we can do to help pupils and staff be more relaxed and happy, from using techniques such as breathing, meditation and yoga, to taking learning outdoors. This course will help teachers develop skills and strategies to improve their own mental health and wellbeing. It will also enable them to begin to deliver a programme in their own schools to improve the wellbeing of other staff and pupils.

Target Audience:

All Primary School Staff

Course Provider:

Hester Binge – Education Guru

Outcomes:

- Begin to understand the connection between body and mind and the impact of this
- Have a toolkit of strategies to use in periods of stress
- Be more aware of mental health issues that may be present in the children you teach and how this may impact on their learning

Dates/Time/Venue:

This course can **only** be offered as a bespoke training event to a single school/cluster. Please contact the School Development Team who will be able to make the arrangements for you. Tel: 01228 221312/221316 email: schooldevelopment@cumbria.gov.uk
